The fee for the summer academy is EUR 50.00. This includes the accommodation for two nights (single room) and all meals at Tutzing. If you intend to come (leave) the day before (after) the start (end) of the conference, let us know. We will then try to make a reservation at modest additional cost.

Tutzing is located approximately 40 km southwest of Munich on Lake Starnberg. From the Central Station (Hauptbahnhof): Take the urban railway S-6 to Tutzing or the regional train (RB) towards Garmisch-Partenkirchen/Innsbruck/Murnau/Kochel/Seefeld till Tutzing. The train departs from track 27-36 (main level) every half hour.

From the airport take the urban railway S-1 or S-8 to Munich Central Station and follow the instructions above.

The Academy is located in about 22 walking minutes from the Tutzing Train Station. You will also find cabs and a Bus directly at the front entrance. Take freeway A95 towards Garmisch-Partenkirchen, then exit to Starnberg and continue on the federal highway (B2/ direction Weilheim) until you pass the village of Traubing, then take a left. At the end of the road turn right to Tutzing. The Akademie für Politische Bildung is on your left shortly after passing the town sign Tutzing.

Our guests can use the charging stations at the Academy for electric vehicles (cars, scooters, bikes) free of charge.
The Leibniz Institute for East and Southeast European Studies (IOS) is a regional studies center at the University of Regensburg focusing on emerging east European economies in a global perspective.

Situated south of Munich on Lake Starnberg, the Akademie für Politische Bildung (APB, Academy for Civic Education) has a reputation for organizing conferences and workshops in various fields of the social sciences.

To foster the exchange of ideas and networking among scholars, the IOS and the APB launched a series of annual Summer Academies. The IOS/APB/EACES Summer Academies on Central and Eastern Europe aim to bring together researchers in a workshop atmosphere. Each participant presents a research project and comments on another one, to be followed by a general discussion. In addition, three keynote lectures are presented. This format should be especially interesting for PhD students and postdocs. More senior researchers, however, are also welcome to participate. The workshop language is English.

MONDAY, JULY 8, 2019

1.30 p.m. Arrival of participants – Coffee in the reception hall
1.55 p.m. Welcome and introduction
2.00 p.m. Keynote lecture 1

The climate, growth and development
Prof. Richard Tol
University of Sussex, UK; Vrije Universiteit Amsterdam, the Netherlands
Presentation of projects by participants
